Context

“English for Health and Behavioural Sciences” is a (1st year) compulsory course within the BA programme in Medicine at the University of the Balearic Islands. This subject primarily aims at providing students with the language competence necessary to communicate effectively in their professional environment (B2 level – Common European Framework of Reference for Languages), and helping them to gain confidence when using English in their academic and professional lives. The course will follow a practical approach to language issues, which does not however preclude the inclusion of several theoretical sessions aiming at developing explicit knowledge concerning particularly complex language issues (grammar, specialized medical vocabulary, pronunciation or idiomatic language). Please, be aware that this is an **English for Specific Purposes course**, which means that having a general English language competence at a B2 level won't be enough to pass the subject.

Requirements

Syllabus

Essential

This subject will be entirely taught in English. Therefore, an **intermediate level of English (B1 - Common European Framework of Reference for Languages)** is needed prior to course commencement. This is the level of English students should have reached at the end of their high school studies and the one required to pass university access exams. Students who do not have this level of English will find a list of self-study resources in the bibliographical section of this guide and **it is their responsibility to reach this level prior to the beginning of the course**. Furthermore, the "English Lab" rooms are at the disposal of UIB students for them to use the varied resources for the study of English that the lab contains with the help of 3rd/4th-year English Studies students. For further information on the "English Lab" check the Lab's social media site https://www.facebook.com/englishlabUIB/info?tab=page_info

Skills

Specific

- * CM2-14. Understanding and practising aspects of communication with patients, relatives, and their social environment. Discussing models of clinical relation, interview, verbal and non-verbal communication, and interference. Breaking bad news. Within the general framework of this competence (CM2-14) the students will develop their ability to communicate effectively, taking into account different registers and situations in English language. The student must be able to work on specific tasks related to the field of Medicine with a high standard of fluency and correction in English language (B2).
- * CM2-15. Writing histories, reports, instructions and other clinical registers in a comprehensible way for patients and their families, as well as for other professionals. Within the general framework of this competence (CM2-15) the students will develop their ability to listen, analyse and evaluate information related to the field of Medicine effectively taking into account different registers and situations in English language (B2); as well as their ability to understand and write about this information, showing an adequate level of maturity, in English language (B2).
- * CM2-16. Writing scientific or professional documents and presenting them in public. Within the general framework of this competence (CM2-16) the students will develop their ability to analyse, summarize, critically evaluate, write and present information in English. The students must masterly use technical vocabulary in the field of Medicine and general vocabulary in the frame of an upper intermediate level (B2) of English language.

Generic

- * H38. Ability to understand, speak, read, and write in English so as to reach a B2 level (Common European Framework of Reference for Languages) by the end of the course.

Basic

- * You may consult the basic competencies students will have to achieve by the end of the degree at the following address: <http://www.uib.eu/study/grau/Basic-Competences-In-Bachelors-Degree-Studies/>

Content

Syllabus

The course will be divided into thematic units. The range of topics and issues covered will include (but will not necessarily be restricted to):

Health and Illness
Medical practitioners
Taking a history
Examining a patient
Special examinations
Investigations
Making and explaining a diagnosis

Skills to be developed and practised through these thematic units are detailed below.

Range of topics

1. Use of English
 - Integrated learning of grammar (B2 level).
 - Vocabulary practice through semantic fields.
 - Non-specialized and specialized vocabulary.
 - Guessing meaning from context.
 - Spelling.
2. Reading
 - Understanding written texts on topics related to the field of Medicine followed by comprehension exercises, as well as analysing model texts from medical contexts.
 - Identifying useful vocabulary and general understanding of the text.
3. Listening
 - Understanding and reacting to real life dialogues and oral texts on topics related to the field of Medicine followed by comprehension exercises.
4. Writing
 - Applying the grammatical rules and vocabulary learned in class to the written text in order to produce documents that comply with the standard conventions.
5. Speaking
 - Producing real life dialogues and oral texts on topics related to the field of Medicine. Individual presentations and group debates on relevant topics, pair conversations interaction in simulated real life contexts.
 - Grammatical correctness in the production of speech.
 - Fluent and accurate production of the specific sounds of English.

Teaching methodology

IMPORTANT NOTES:

*Please, be aware that this is an **English for Specific Purposes course**, which means that **having a general English language competence at a B2 level (or higher) won't be enough to pass the subject**. Specific

Syllabus

knowledge and practical application of the vocabulary, register, conventions, documents and forms, etc., related to the field (Medicine) and studied during the course will be required.

* Mobile phones and other electronic devices are NOT allowed in the classroom. Laptop computers are acceptable ONLY if used for purposes related to classroom activity. No electronic device whatsoever (including computers) is allowed in the classroom during exams/practical sessions, unless otherwise specified by the lecturer (e.g. if the practical session entails use of the internet for pedagogical purposes).

In-class work activities (2.4 credits, 60 hours)

Modality	Name	Typ. Grp.	Description	Hours
Theory classes		Large group (G)	These sessions (GG) will be mostly devoted to acquiring both general and specific or specialized vocabulary, and practising this vocabulary in context; as well as to studying and practising relevant aspects of the English grammar (B2). Attention will also be paid to listening and speaking skills. It should be noted that a holistic and integrated approach to language teaching and learning will be followed in the course. This means that, independently of the session type and the topic under discussion, an effort will be made to practise different skills at a time.	27
Practical classes		Medium group (M)	These sessions (GM) will be mostly devoted to the development and practice of the students' speaking and writing skills leading to a growing language competence in oral and written communication. Attention will be paid as well as to the development of reading strategies and abilities.	27
Assessment	Final exam (50%)	Large group (G)	This will be a written exam consisting of a Use of English (Grammar and Vocabulary) short-answer test (20%), a listening test (10%), a reading test (10%), and a writing activity (10%) . All students will sit the writing activity but it will only be graded when the student obtains at least 5 out of 10 in the other three parts of the exam (Use of English, Listening, Reading). This final exam must be passed with at least a 5 for the student to get a pass in the subject. The final exam can be retaken in the <i>convocatoria extraordinaria</i> . *Please, be aware that this is an English for Specific Purposes course , which means that having a general English language competence at a B2 level (or higher) won't be enough to pass the subject . Specific knowledge and practical application of the vocabulary, register, conventions, documents and forms, etc., related to the field (Medicine) and studied during the course will be required. There will be an alternative assessment option (OPTION B) for the WRITING ACTIVITY in this final exam: participation in the 2020 edition of the UIB English Short Story Contest (10%) . Updated information as well as final dates for this Contest will be provided in class once confirmed. For information on past editions, check: https://sac.uib.cat/act_sac/estudiants/Are-you-good-at-english/ . Students will need to choose one of the assessment options (OPTION A: Written activity in the final exam OR OPTION B: participation in the Short Story Contest) and sign a	3

			written statement confirming their choice at the beginning of the course.	
Assessment	Mid-term assessment (30%)	Medium group (M)	<p>Compulsory attendance to one session during the course (the date will be specified in the course timetable), in which the students' listening (10%), reading (10%), and writing (10%) skills will be assessed. This mid-term assessment CANNOT be retaken either in June or in the <i>convocatoria extraordinaria</i>.</p> <p>*Please, be aware that this is an English for Specific Purposes course, which means that having a general English language competence at a B2 level (or higher) won't be enough to pass the subject. Specific knowledge and practical application of the vocabulary, register, conventions, documents and forms, etc., related to the field (Medicine) and studied during the course will be required.</p>	2
Assessment	Speaking assessment (20%)	Medium group (M)	<p>The speaking assessment will consist of two parts:</p> <ol style="list-style-type: none"> Compulsory attendance to one session at the end the course (dates and times will be specified via Campus Extens), in which the students' speaking skills (10%) will be assessed (individually and/or in pairs). The speaking exam can ONLY be retaken in the <i>convocatoria extraordinaria</i> provided that 1/ this assessment has been failed in the <i>convocatoria ordinaria</i>; AND 2/ the student has already passed the final exam (either in the <i>convocatoria ordinaria</i> or in the <i>convocatoria extraordinaria</i>) with at least a 5, but her/his overall grade in the subject is still a "fail". <p>*Please, be aware that this is an English for Specific Purposes course, which means that having a general English language competence at a B2 level (or higher) won't be enough to pass the assessment and/or the subject. Specific knowledge and practical application of the vocabulary, register, conventions, documents and forms, etc., related to the field (Medicine) and studied during the course will be required.</p> <ol style="list-style-type: none"> Either <ul style="list-style-type: none"> A/ participation in the 2020 edition of the UIB English Monologue Contest (10%). Updated information as well as final dates for this Contest will be provided in class at the beginning of the course. For information on past editions, check: https://sac.uib.cat/act_sac/estudiants/Are-you-good-at-english/. B/ creating a divulgation video related to the field of Medicine (10%). Instructions and norms will be provided in class at the beginning of the course. <p>Students will need to choose one of these assessment options for the second part of the speaking assessment (OPTION A OR OPTION B) and sign a written statement confirming their choice at the beginning of the course.</p>	1

At the beginning of the semester a schedule of the subject will be made available to students through the UIBdigital platform. The schedule shall at least include the dates when the continuing assessment tests will be conducted and the hand-in dates for the assignments. In addition, the lecturer shall inform students as to

Syllabus

whether the subject work plan will be carried out through the schedule or through another way included in the Aula Digital platform.

Distance education tasks (3.6 credits, 90 hours)

Modality	Name	Description	Hours
Individual self-study		Individual study of the course contents and practice of the skills, completion of pre-assigned tasks and <i>Aula Digital</i> activities.	60
Group self-study		Preparation for the speaking assessment.	30

Specific risks and protective measures

The learning activities of this course do not entail specific health or safety risks for the students and therefore no special protective measures are needed.

Student learning assessment

IMPORTANT NOTES:

If a student fails to show up on the day and at the time established by the lecturer for the different assessments or exams, the grade for that assessment/exam will be a 0 (zero). Only if the assesment(s) to which the student fails to attend accounts for 30% or less than 30% of the total assessment of the course, will the grade be NP.

The dates and times of the different assessments/tests will not be altered UNDER ANY CIRCUMSTANCES (so they will not be repeated under any circumstances) **except those contemplated by the UIB *Reglament Acadèmic***. Students will not be allowed into the classroom when the assessment or exam has already started.

* Please, be aware that this is an **English for Specific Purposes** course, which means that **having a general English language competence at a B2 level (or higher) won't be enough to pass the subject.**

Fraud on assessment elements

In accordance with article 33 of Regulation of academic studies, "regardless of the disciplinary procedure that may be followed against the offending student, the demonstrably fraudulent performance of any of the assessment elements included in the course guides of the subjects will lead, at the teacher's discretion, to an undervaluation in the mark that may suppose the qualification of "failed 0" in the annual assessment of the subject".

Final exam (50%)

Resources, bibliography and additional documentation

The basic textbook for this subject will be:

GLENDINNING, E. and B. A. S. HOLMSTRÖM. 2005. *English in Medicine: A Course in Communication Skills*. Third Edition. Cambridge: Cambridge University Press.

Students are required to have this textbook at the beginning of the semester, and to always bring it to class.

Other compulsory materials will be made freely available to the students via the Digital Classroom. It will be the student's responsibility to bring them to class when so instructed.
